

RELIABLE PRODUCER OF TASTY FROZEN HEAT&EAT PRODUCTS

Chef
Lundén

18 YEARS OF EXPERIENCE IN HANDCRAFTED FROZEN HEAT&EAT PRODUCTION

Lunden Food's factory is located in Loo, Jöelähtme Parish, where we focus primarily on producing fresh sandwiches with a variety of fillings. We are part of the Oy Lundén Ab group. Creativity, reliability, and flexibility are at the heart of everything we do. In addition to sandwiches, we also produce a wide range of products daily, including salads, ready meals, pizzas, cabbage rolls, slow-cooked meats, sandwich spreads, and much more.

Our product range includes products we have been producing since the first years, but each year we introduce many new products, featuring both - traditional and world cuisine inspired flavors. Our goal is to offer consumers delicious food made with the best ingredients possible.

In May 2017, the factory expansion was completed, increasing the production space to 7,000 m². We are proud to be certified with the FSSC 22000 food safety standard and the ISO 14000 environmental management standard. Now was the right time to launch Chef Lundén brand in Finland. In 2020 the Chef Lundén brand was launched in Estonia.

Lunden Food has been recognized three times as the best food industry company in Estonia.

Lunden Food's mission is to provide consumers with enjoyment and culinary experiences through food made from high-quality ingredients.

Lunden Food's vision is to be the most valued and innovative profitable food industry in Estonia, offering consumers delicious and high-quality food.

Freshly frozen

Freezing technology helps us bring our amazing sandwich ideas and flavors to more distant markets. The products are developed in such a way that after thawing, no one would believe they were ever frozen. This is a skill, and we take pride in having the expertise to pleasantly surprise our customers and consumers.

Frozen sandwiches are an ideal solution for convenience food sector or retail customers to offer their clients tasty products without worrying about wastage and daily orders. The sandwiches stay fresh at -18°C for up to a year—just plan your stock and operate with peace of mind.

Private label

For over 15 years, we have been manufacturing private label products for various retail chains and the convenience food sector in Estonia, Finland, Latvia, and Lithuania, as well as for the HoReCa sector in Sweden. Some examples are SOK, Kesko, Circle K, Tallink etc.

THE SECRET BEHIND THE FRESHNESS OF OUR PRODUCTS.

How do they taste so good, you ask? "I can't believe it they were frozen" are regular comments we have heard. It is time to start to believe in frozen sandwiches and they're tastiness. Because we do! And we make them so good, that your tastebuds are going to dance, if you try one...or maybe the tastebuds are not the only ones who are dancing? Our sandwiches are freshly made from the best ingredients and handcrafted with care. After preparing the best sandwiches, they are going to be frozen. As a next step, we have a chance to share the flavours around the world. You, on the other hand, have the chance to cook them in the oven for that extra crispiness and tastiness. Who doesn't like the combination of melted cheese and great smell from the oven? So...have a taste, let your tastebuds go wild and enjoy the ride with us! Hmm..what else!? Oh, the packaging part! Our products are available in different packaging options.

DEFROSTING INSTRUCTIONS: Defrost in the refrigerator overnight or at room temperature for 3 hours. After defrosting, store at a temperature of up to 6°C and consume within 5 days.

ALLERGENS

Allergies and people are big issue in nowadays world. We have to keep everybody safe, and also give them the security, that they will be fine after eating a specific sandwich. To make it easier for you, we have created the system, which allows you to see the allergens of each product. We have marked the allergene to each product, which might occur in the product.

THE JOURNEY OF FROZEN HEAT&EAT PRODUCTS FROM FARM TO CONSUMER.

TURKEY EMMENTAL TOAST 170 G
